PROFESSIONAL SUMMARY

Second-year B.Tech Cyber Security student at Chandigarh University, Lucknow building practical skills in cybersecurity and software development. Built the RootSec and Ambassador Portal platforms solo and co-built ShadowAuth and AegisAppSec, two cybersecurity products for deception-based network defense and application security. Ranked in the top 7.45% of Homles CTF 2026 and holds three Quick Heal exam-based certifications. Seeking a technical role in cybersecurity or software development.

TECHNICAL SKILLS

- **Programming:** Python, Java *(Still Learning)*
- **Web & Backend:** Django, FastAPI, Flask, Node.js, Tailwind CSS, REST APIs, MySQL *(Still Learning)*
- **Security & Networking:** Kali Linux, Nmap, web security, OSINT, digital forensics, TCP/IP, DNS *(Still Learning)*
- **Tools & Platforms:** GitHub, Linux (Ubuntu, WSL), VMware, VS Code, AWS (basic), Antigravity

PROJECTS

ShadowAuth (Team Project) *2026*

Enterprise-grade network security architecture built on active deception and threat routing. Sits at the network edge, profiles incoming traffic, sends legitimate users to real infrastructure, and funnels attackers (scanners, SQLi attempts, DDoS bots) into a sandboxed honeypot (fake backend)

- **Technologies:** Python, Django, FastAPI, REST APIs, MySQL, JavaScript, Docker

AegisAppSec: Autonomous DAST and Real-Time WAF Defense Platform (Team Project) *2026*

Lightweight DAST vulnerability analyzer, real-time ASGI WAF defense middleware, interactive exploit reproduction engine, and developer remediation hub unified into one startup-ready platform

- **Technologies:** Python, FastAPI, Django, DRF APIs, JavaScript, MySQL, containers, web scraping

RootSec: Cybersecurity club portal, CTF arena, and learning OS with registry-based Flask 3 blueprints. *2026*

- **Technologies:** Python, Flask, SQLite, PyMySQL, Tailwind CSS, JavaScript, Web Audio API, Vercel

CodexSec Ambassador Portal: Ambassador and task-incentive tracking platform built on Flask 3. *2026*

- **Technologies:** Python, Flask, SQLAlchemy, MySQL, Redis, Tailwind CSS.

ACHIEVEMENTS

- **Homles CTF 2026 (Hack The Box):** team 0xFAULT ranked 420 of 5,637 teams worldwide (top 7.45%)
- **Hack2Innovate CTF + Hackathon 2026 (Quick Heal Academy & CompTIA):** 1st Runner Up (2nd place) with squad CODEXSEC, Chandigarh University, Lucknow Campus | Sep 2026 | ID H2I-2026-RU1-24F6E4
- HacXLerate Hackathon (ByteXL), national level AI in Healthcare Hackathon; multiple robotics projects built from Class IX through college

CERTIFICATIONS

- **Quick Heal Certified Cyber Security Analyst** | June 2026 | ID: nMMV2YtAsJP20MV106WIsQ
- **Quick Heal Certified System Administrator** | June 2026 | ID: IQlIgJBH6Mni67aFpNZH7w
- **Quick Heal Certified Secure Coding Professional** | June 2026 | ID: onBM28iYAy1EKnSgzccpPw
- **IT Fundamentals** | Quick Heal Academy | ID: 2025/QH/CU03
- Microsoft Learn: 30 badges and 8 trophies in AI, Azure AI, and AI security; Cisco Packet Tracer (3 courses); Google Generative AI Studio; Simplilearn Prompt Engineering; AITD Ethical Hacking Workshop

EXPERIENCE & LEADERSHIP

Operations Lead | CodexSec (IT education platform for classes 9–12) *Currently*

- Coordinate product development and operations; handled operations for BlackOut Sector CTF 2026, a 50-hour online CTF with 3 sponsors and 2 community partners

President | RootSec, Cyber Security Club, Chandigarh University *2025 – Present*

- Lead the Executive Committee; plan 1 inauguration week of cybersecurity basics followed by 6 weekly sessions

EDUCATION

B.Tech, Computer Science Engineering (Cyber Security) | Chandigarh University, Lucknow Campus *2025 – 2029*

CBSE Class XII | Police Modern School, Etawah, Uttar Pradesh *2023 – 2025 | 70.8%*

Class X | Gyan Sthali Academy, Etawah, Uttar Pradesh *2021 – 2023 | 86.6%*
